

Get a Fabulous Granite Kitchen In Only A Week!

Wouldn't it be nice to prepare your next dinner with friends in a gorgeous, durable, yet low-maintenance kitchen? A beautiful, easy to care for, granite kitchen can be yours in less than a week! Better still, over its lifetime, dense and hard-wearing granite will continue to look and perform like it did the day it was installed, so you may never need to think about replacing your countertops again.

You can even carry your new look through your entire home. Stones like granite, marble, travertine, and onyx are perfect choice for vanities, tub surroundings, showers,

and other surfaces, too, as they provide luxurious accents to any décor, and are versatile, easy to clean, and uphold their beauty and quality for a lifetime.

To make your project as hassle-free as possible, choose a quality company that imports, fabricates and installs, and has a local showroom where you can actually touch, feel, and choose your stone of choice in person. Find one with a great designer who can fill you in on the latest color and style choices to make your decision process as easy as possible. In summary, find one partner that does it all. Dealing with one source and no "middle men" or "sub-contractors" both simplifies and accelerates the process.

Colonial Marble and Granite is the largest fabricator and installer of natural stone materials in the Northeast, with a focus on quality workmanship, unparalleled customer service and excellent prices. Treat yourself and visit their new King of Prussia showroom where you will find more than 4,500 slabs in over 450 colors with granite countertops, backsplashes, and tile on display in fully equipped kitchen settings, including a variety of cabinet colors and styles and matching high end appliances to choose from. To find out how you can be cooking in your new granite kitchen in less than a week, or to get a free estimate, call (610) 994-2222, or visit www.colonialmarble.net. **DL**

Today, kitchens are the heart of a home, a multi-use space where families come together to spend time, share meals, do homework and entertain guests. This is a remarkable evolution from the past when kitchens were purely a work area. These older kitchens are simply ill-equipped to accommodate the growing needs of modern families.

Design-build remodeling firms easily resolve every issue confronting dated kitchens, from lack of space, insufficient countertops and storage areas, to aging appliances and worn cabinets. Professional contractors

aren't confined to your kitchen's current layout, or even the location of its walls and windows! They can create an elegant, comfortable living space with luxurious cabinetry, high-end appliances and the finest details, while maximizing every inch of usable space.

When consulting your remodeling firm, discuss how you want your kitchen to function, your lifestyle and storage needs. The contractors will have practical, inspired design solutions to whatever challenges that arise. Do you have more than one cook in the family? Consider multiple food prep stations. Want internet access for homework or to look up a recipe online? Incorporate a desk with an integrated computer area.

To assure optimal design, you need to hire an expert. Design-build contractors will truly listen to your ideas and craft a comprehensive plan. A single point of contact keeps you involved in the process and ensures the project stays on budget and schedule. It encourages continuity between design and construction, and assures your absolute satisfaction upon completion.
