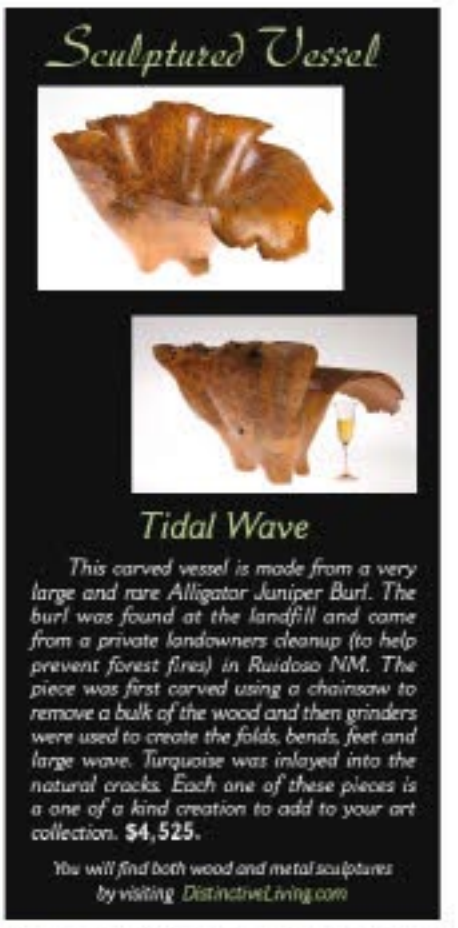
Solid as a Rock: Natural Stone Adds Low Maintenance Luxury

Stunning, low maintenance, and guaranteed by Mother Nature herself to last a lifetime, no material combines the best of all design worlds like natural stone.

Replace tired kitchen countertops with gorgeous, easy care granite in less than a week and enjoy cooking and dining in efficient, low maintenance luxury. Dense and hard-wearing, granite will maintain its beauty and integrity over its lifetime. You may never need to think about replacing your countertops again.

As versatile as it is attractive and durable, natural stone like marble, travertine, onyx or granite can infuse any room in the house with style and glamour. Add artistic interest to vanities, tub surrounds, showers and other surfaces, and transform the ordinary into the extraordinary.

For a stress free experience, choose a company with a rock solid reputation. Be sure they feature a local show room where you can actually see and feel the stone of your choice, up close and personally. A firm that does their own importing, fabricating and installation, avoiding "middle men" and "sub-contractors," both simplifies and accelerates the process. An experienced in-house designer should be available to assist you in selecting colors and styles that will best enhance your existing décor or anchor a new design scheme. Simply put: Find one partner that does it all


Colonial Marble and Granite is the largest fabricator and installer of natural stone materials in the Northeast, with a focus on quality workmanship, unparalleled customer service and excellent prices. Visit their new King of Prussia showroom where you will find more than 4,500 slabs in over 450 colors and fully equipped kitchen settings, including a variety of cabinet colors and styles and matching high end appliances to choose from. To find out how you can be cooking in your new granite kitchen in less than a week, or to get a free estimate, call (610) 994-2222, or visit www.colonialmarble.net.DL
