

The *Beauty* of Natural Stone Surfaces, A Joy Forever

NATURAL STONE has a beauty that is timeless and a strength that is legendary, making it the most sought-after material for kitchens, baths and surfaces throughout homes. Each stone is truly unique, styles that man-made materials cannot duplicate, with varying color, veining, swirls and crystal patterns. And once installed, these time-honored styles will never need to be replaced.

The density and durability of natural stones like granite, marble and travertine allow them to retain their integrity, solid performance and magnificent appearance for a lifetime. So resilient and hard-wearing are natural stones that they can withstand the daily afflictions of cooking, cleaning and everyday life that would easily mar, chip or scratch synthetic surfaces, and still manage to look as magnificent as the day they were installed.

As versatile as they are strong, natural stone surfaces impart elegance into any area of a home with applications like vanities, floors, showers and tub surrounds. Enjoy the look and feel of indulgence without having to spend a fortune with gorgeous granite countertops, a luxurious onyx fireplace or a stylish, one-of-a-kind

marble-top desk.

Choosing top-quality natural stone for your home can be a daunting task if you don't know where to look. Select a reputable company that features a local showroom where you can see and feel individual stone slabs. Companies that handle their own importation, fabrication, and installation avoid the middleman which keeps them accountable to their customers and their prices down. At these firms, you can expect to find a tile department with thousands of samples and experienced in-house designers ready to assist you in your selections.

As the largest fabricator and installer of natural stone materials in the United States, Colonial Marble and Granite excels in personalized customer service, pricing and quality workmanship. Visit any one of their impressive showrooms throughout PA and NJ, including Quakerbridge Mall & Montgomery Mall, or their showroom in King of Prussia where you will find more than 4,500 slabs in over 450 colors. Call (610) 994-2222 for a free estimate, or visit www.colonialmarble.net for more information. ■

GETTING DOWN on hands and knees and rummaging through the dark abyss of overstuffed, poorly outfitted cabinets is nobody's idea of a good time. Your cabinets may be lovely and stylish on the outside, but less than optimally designed on the inside. The solution: Glide-out shelving. Simple and cost-effective, glide-out shelving will make you smile every time you gain easy access to that whatchamacallit that was once crammed into the back of the cabinet under ten other

Glide-Out Shelving Reunites You With Your Stuff
